Registration, Scheduling, Uniforms, Equipment, Finances

Used by thousands of leagues around the world.

League Organizer™ is the nation's best selling league management and sports scheduling software.

This one program includes:
- a complete league registration package
- a powerful league scheduling program
- an easy to use tournament scheduler
- an inventory tracker for equipment
- a uniform requirements calculator
- a financial section which manages dues and sponsors and creates financial statements

All sections are fully integrated with each other.

Registration

Register players, coaches, umpires/referees, and all other volunteers. Print counts of each age group, assign tryout numbers, print tryout forms, and assign players and coaches to teams during the draft. League Organizer can even assign players automatically.

Enter doctor, dentist, and insurance information and print a medical roster for each manager.

Print registration forms, rosters, mailing labels, and numerous reports. Blast emails. All reports can be printed as pdf files to email and as html files for the web.

Uniforms

Enter the team colors and player sizes and you can print an ordering sheet for uniforms and tee shirts by color and size, for each team or the entire league. Keep track of uniforms with distribution and return forms.

League Scheduling

The scheduler is fully integrated into League Organizer. It lets you schedule an unlimited number of teams on an unlimited number of fields. As you enter scores, standings are calculated. Schedules, scores, and standings can be printed or uploaded to your website. Assign officials and give each a personal schedule, then calculate their pay for games completed.

Add the Super Scheduler Module if your teams are playing on fields throughout the town. It adds the ability to block out days and times when a field is unavailable and when individual teams cannot play.

This is the most powerful scheduler you can buy!

Tournament Scheduling

Create schedules for single & double elimination tournaments. Brackets are automaticaly updated as scores are entered. Print schedules as brackets or as a list of games by field.

Equipment

Keep an inventory of your equipment and prevent loss by tracking equipment distributions and returns.

Finance

League Organizer™ lets you track registration and fund raiser fees for each player and team. Record sponsor donations and send them reminders. Enter expenses and print financial statements.

More

The Assigning Module adds a drop down list of available umpires/referees. There's even a list of umpires/referees who didn't want to work that day so you can call them in an emergency. The Statistics Module adds player and game statistics.

Enhance League Organizer™ with Add-On Modules

◆ Assigning Module

Umpire availability, certifications, ability ratings.
Assigning grid with a drop-down showing umpires available and certified for the current game.
Assignor's worksheet by date, time, and field.
List of unassigned umpires by date.

◆ Merge Pak

Site license to run League Organizer™ on four additional computers within the league.
Merge menu so several people can enter names, then merge them together into a central computer.

◆ Online Registration Module

Import registration information from your online registration provider.
Print reports showing who has registered and the amount paid.
Automatically update the inactive file as new registrations are imported.

◆ Super Scheduler Module

Enhance the scheduler to include:
Days, dates, and times when fields are not available.
Special requests for a team to play or not play on specific days, dates or times.
Earliest, latest, and preferred game times when generating the schedule.
Schedule games on alternate days when no fields are available.
Assign games to the opposing team's field when an available field cannot be found, then switches the home field again the next time the two teams play each other.
